

Name That UA

It's where we work in teams to complete challenges	This is where we twist around and dance like ballerina's	This is where you go to find worms... bookworms, that is! 🐛	This is where we bounce a basketball using our fingertips	It's where we work together as a band or chorus.	It is where I get to come to your classroom
This is where we make messes, but have fun doing so		This is where we learn how to throw a football using the laces	This is where we learn to use our minds to create our own masterpieces		This is where we kick a soccer ball using the inside of our foot
It is where we use our fingers to get our work done		It's where we sing, say, dance and play.	It's where a baseball player might try to bring their bat ... especially if their teacher told them to "hit the books"		This is the only place we get to run in the school!
Enter peacefully here because the books are sleeping all tucked in under their covers 📖		It's where we make a plan, create, test and improve	This is where you go to run, jump, hop, skip, and much much more		It's where we create things to solve a problem or answer a question
Start		It's where we use melody, harmony, rhythm, tempo and dynamics.	It is where we can visit places outside of our school without leaving our classroom	This is where we learn about others to inspire our own work	End
